No-Touch Magnetic Safety Tools More Safety, Precision and Productivity

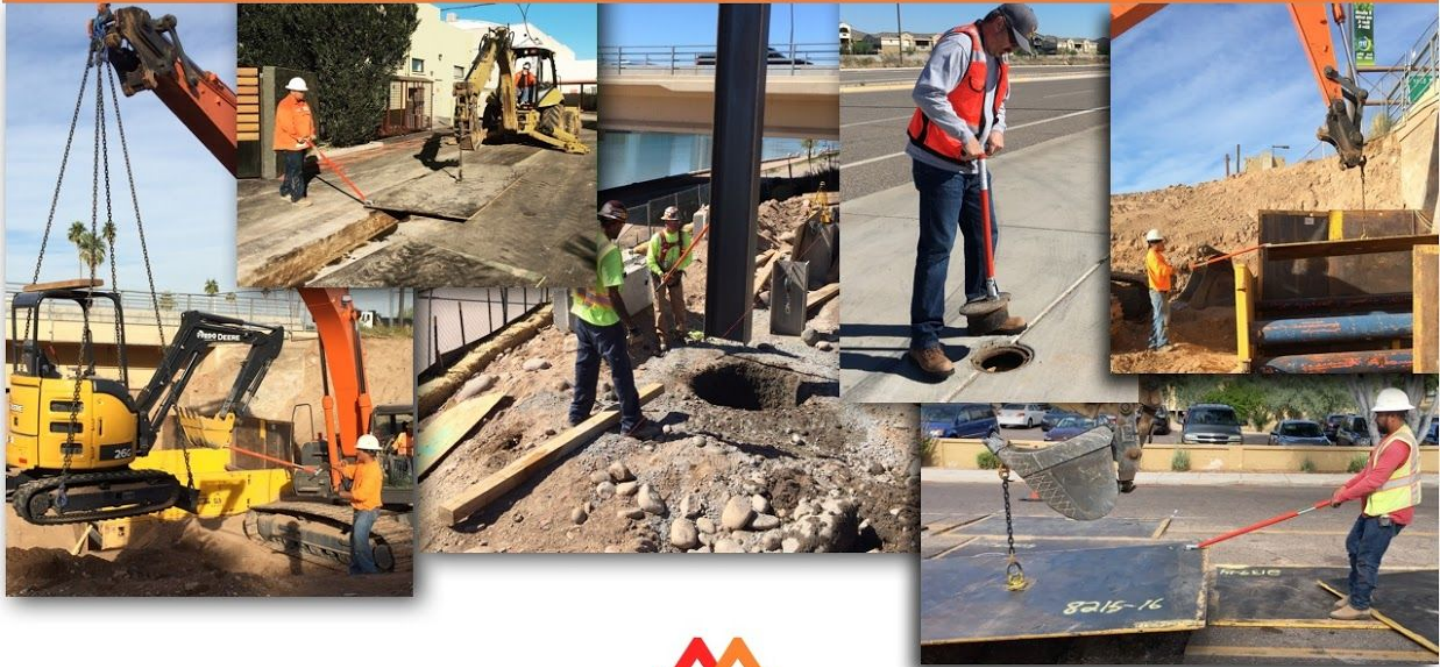

Safe-T-Stik products increase employee safety and greatly reduce the risk of injury in and around work zones. Proprietary aluminium components have been CAD designed and are created with a combination of CNC and hands on craftsmanship. Each tool is assembled by hand and quality checked during assembly and packaging. The tough, durable, lightweight, UV inhibited, safety orange FRP tube provides 35Kv per inch electrical insulation to the user. Safe-T-Stik is designed and built with on the job safety, quality, durability, reliability and efficiency in mind.
